Customer Reviews

My daughter's oboe instructor recommended this book. It's been in print for years judging from the old and tattered copy the oboe instructor lent us to use while we waited for the new one. My daughter was thrilled to find a fingering chart inside that she could fold out. I'm not real familiar with oboe books as I play piano but since this has been on the market so long I'm assuming it's stood the test of time and is one of the best.

I got this along with the other ones in the series. It helped out, as long as the kiddo did his

practicing.

Six months ago, I couldn't even spell oboe..... you should hear me now.....

A staple of music education.

Its a great bok for learning it covers what needs to coved for advanced student it comes right away nothing bad.
