Dress Your Family In Corduroy And Denim

Synopsis

A #1 New York Times Bestseller Playwright and National Public Radio Commentator David Sedaris lifts the corner of ordinary life, revealing the absurdity teeming below its surface. His world is alive with obscure desires and hidden motives - a world where forgiveness is automatic and an argument can be the highest form of love. This is another unforgettable collection from one of the wittiest and most original writers at work today. --This text refers to the Hardcover edition.

ASIN: B0002P0FVW

Best Sellers Rank: #45 inÂ Books > Audible Audiobooks > Humor > Essays #57 inÂ Books > Humor & Entertainment > Humor > Parenting & Families #135 inÂ Books > Humor & Entertainment > Humor > Essays

Customer Reviews

While not as sidesplitting in its entirety as "Me Talk Pretty One Day," this was an excellent book. Some of the pieces were still very funny, but there were some pieces that were just touching recollections. What I like is that even when DS is mocking some horrible traits shown by his family members, he also clearly loves them and that love shows through. He knows that you can love someone and not like everything that they do. There are some clearly funny places though. The author's account of his brother's cooking habits and dog training techniques made me laugh so hard I dropped the book - then I immediately took it to my friend's house so she could read it, but made her read it aloud instead of doing it myself because I know I wouldn't have been able to speak aloud for the last few pages due to the gasping for air. I also found it interesting that one of his sisters lives in my town - but my neighbor tells me this is not news, she'll introduce herself to you in the local library :) God forbid we ever have a smoking prohibition, or DS will be in Tourette hell. I believe him utterly when he says that for him, smoking is a good thing. If you like reading about imperfect people

who care about each other but can be quite ludicrous, and observations of human oddity in general, this book is for you. (As are all his other books.) I found the second half of the book to be funnier than the first half.

Dress Your Family in Corduroy and Denim is my second book by David Sedaris after finishing Holidays on Ice (one of the funniest books, ever). Unlike Holidays, Dress Your Family consists of 22 short stories that are all autobiographical in nature. Dress Your Family doesn't quite have the belly laughs of Holidays, but it is comical nonetheless. One funny story is about his brother's wedding on the beach with his dogs as attendants (the flower girl was in heat). In another, he plays strip poker with his friends and makes up the rules in order to keep his clothes. Sedaris' self-deprecating humor is also amusing. The author had an unusual childhood, and while most boys were picking up footballs and hockey sticks, Sedaris was picking out wallpaper samples. But Dress Your Family is also filled with the angst of childhood, and most of us will identify with many of these stories. Some are downright heartbreak. After dropping out of college, his father asks him to move out of the house. Only later does Sedaris learn the real reason: his father disapproves of his homosexuality. Still, the Sedaris family has center stage here. With mom, dad, four sisters, and a very masculine brother, each one is quirkier than the next. It's hard to tell how much is Sedaris' very keen powers of observation, and how much is exaggeration. In any case, it's no wonder that when odd things happen to his sisters, they all scream at him "and I don't want to see this in one of your books!" Sedaris always promises to keep their secrets, but everyone knows they will appear sometime soon. Sedaris is an amazing writer and storyteller, and it is appropriate that he has such a rich source of material. I'm sure it will keep him going ad infinitum.

I love David Sedaris for the ease at which he can have you in side splitting hysterics. The anticipation of a new collection of essays means at least an hour or two of annoying loved ones and co-workers with, "one more section to read aloud". However upon finishing this I only mustered up some hearty chuckles. Success hasn't spoiled Sedaris, it's just stripped him of his anonymity. Consequently placing himself in situations where he can silently observe are becoming obsolete. Most of the stories revolve around his family; a melancholic and unflattering collection of portraits that frankly I felt depressed more than amused. There are some very funny moments, but generally the absurd wit that runs through his previous essays was replaced by a sadder, softer tone. Still, fans of his work will find at least some things to giggle over, and that's more than a lot of writers can say.

Ok, cutting to the chase: yes it's worth it, and no, he's not losing his touch -- but like anyone else with a working brain, the particulars will change over time. David Sedaris is still the intelligent person's acid humorist, but he is growing to be able to play in two keys at once. The sharp-tongued "what was she thinking??" materialist, and the thoughtful guy who understands the source of his inspiration (mainly family), and honestly gets what they were thinking after all. And get this! Admits it! If you read The New Yorker and Esquire and some other Lit mags you may have seen much of this material before (hey, a guy's gotta eat between hardcover releases) but much is gained in the compilation. Seriously. I swear you will still suppress an evil snort at regular intervals!

This book is jampacked with what David Sedaris is famous for...great and interesting stories about himself and his quirky family. With marvelous wit and a somewhat sarcastic tone, Sedaris makes you believe you know his family as well as he does. A fun, quick read that can be picked up and put down at a later date, if you're able. Just a lot of fun...though prudish readers may be put off at some parts. David Sedaris is someone I'd love to meet just to hear his stories about his offbeat family in person.
