## Synopsis

"David Sedaris's ability to transform the mortification of everyday life into wildly entertaining art," (The Christian Science Monitor) is elevated to wilder and more entertaining heights than ever in this remarkable new book. Trying to make coffee when the water is shut off, David considers using the water in a vase of flowers and his chain of associations takes him from the French countryside to a hilariously uncomfortable memory of buying drugs in a mobile home in rural North Carolina. In essay after essay, Sedaris proceeds from bizarre conundrums of daily life--having a lozenge fall from your mouth into the lap of a fellow passenger on a plane or armoring the windows with LP covers to protect the house from neurotic songbirds--to the most deeply resonant human truths. Culminating in a brilliant account of his venture to Tokyo in order to quit smoking, David Sedaris's sixth essay collection is a new masterpiece of comic writing from "a writer worth treasuring" (Seattle Times). Praise for *When You Are Engulfed in Flames*: "Older, wiser, smarter and meaner, Sedaris...defies the odds once again by delivering an intelligent take on the banalities of an absurd life." --Kirkus Reviews This latest collection proves that not only does Sedaris still have it, but he's also getting better....Sedaris's best stuff will still--after all this time--move, surprise, and entertain." --Booklist

## Customer Reviews

Writer/humorist David Sedaris' sixth book delivers the hilarity and razor-sharp wit, social commentary, and tenderness of his previous books, but fans of *Me Talk Pretty One Day*, *Dress Your Family in Corduroy and Denim*, and *Naked* may be in for a bit of a disappointment. His previous smashing success has made it increasingly hard for him to top himself. Upon diving into Sedaris' latest collection of autobiographical essays, one can't help but feel *De' Ja' Vu*. Any fans will have already seen all of these essays featured in the *New Yorker* magazine already over the past three or four years. I was a bit disappointed to get the "Wait a minute, I've read this before!" feeling with the opening story, "It's Catching," about his mother-in-law's medical bout with a worm living under her skin. But I guess we can't really blame Mr. Sedaris for the fact that we love him so much that we've already read pretty much all of these in *The New Yorker*, *Esquire*, etc. magazines. Fans of Augusten Burroughs will enjoy Sedaris and also recognize him as a much more believable writer of the memoir. Unlike previous collections which each focus on one part of his life, *"When You Are Engulfed in Flames,"* covers the range of Sedaris' anecdotal life: from childhood and life at home with his mom and sisters, to his adult life, including when he first moved to Paris and dropped out of French classes and ran around telling everyone "D'accord" because of his limited vocabulary. Because this book covers such a wide Sedaris life range, it feels almost like a "best of" kind of collection.
