Customer Reviews

The gist of the book is very neatly summarized. The summary contains the most important points and is great as a 'working' document. I love reading and don't mind reading thick books with many pages, but this book summary is even ideal for people who don't like reading that much.

It hit all the highlights, yet lost little of the content. Allowed me to pick strengths and weaknesses, that then refer me quickly back to the full book for more detail.

Incredibly powerful and valuable piece of work!! I have a couple of hundred books on leadership and personal development. The Speed of Trust is now in my Top 3 Favorites!
