Customer Reviews

I gave this novel three stars only because of the writing which is good. As far as the plot, there are so many plot lines it would be difficult to list them all in one review. So, I refer the reader to the summary of the book provided by .The major disappointment in the book is the rewriting of the main character, Gil Shannon. No longer is he the introspective warrior who restores his soul when he retreats to his horse ranch in Montana and his wife, Marie, a strong person in her own right. In this

book poor Gil seems to be going through male menopause. His marriage is evaporating due to his wife's concerns about his continued service as a SEAL; he's conflicted. So, while on a mission to assassinate a billionaire who launders money for jihadists, he meets said billionaire's bride-to-be. She is mega wealthy, beautiful of course, somewhat flighty, and loves dangerous hobbies like jumping out of aircraft in a wing suit. She saves Gil's life from Russian mobsters who are about to slice and dice his private parts, and after Gil sleeps with her he gets a pang of conscience, not for his wife. No. It seems that Gil just can't bring himself to kill this billionaire bad actor now that he's slept with "his woman." So, Gil and the billionaire's woman go to China to jump off some mountain in their wing suits. Meanwhile, in Mexico city American officials en route to a meeting in a motorcade of SUVs are cut down by a "Ghost Sniper" - for whom the novel is named. The ghost sniper is an interesting, albeit sad sort of character. An American and a former Ranger, he's very good at what he does and seems to be omnipresent. His past and how he came to be working for the cartels is the most intriguing part of this novel.
