Customer Reviews

Essential violin etudes that build tone and technical skills progressively with very musically-pleasing pieces. Each piece focuses on a certain technical aspect and sounds like a solo piece with a distinct character. A must-have for intermediate players.

I purchased this for my daughter and she says that its is excellent. She highly recommends it and purchasing this product.

Each etude has a certain degree of challenge built into it. The exercises are generally quite melodic and are nor boring.

these etudes are extremely fun to play. truly I have looked forward to practicing each day for the past month when I worked on one a day.

My teacher asked me to buy this book. It systematicly teaches me bowing technique and trains my left hand as well. Melodies are beautiful. I'm not bored playing these etudes.

i ordered 3books all books are same missing pages and wrong print.

My daughter uses this book all the time for her violin practice.
