# Muscle Cars Field Guide: American Supercars 1960-2000 (Warman's Field Guide)

## Synopsis

Muscle car enthusiasts can take this fact-filled reference with them anywhere! Featuring more than 300 American muscle cars produced during the last 40 years, this is the ultimate guide for high-performance enthusiasts. This full-color reference features more than four decades of the most powerful American cars ever produced. Listings include a historical background, original factory specifications, available options, original pricing information and an updated price guide, with current values in six condition grades. Includes every type of high performance model from early full-size favorites like the 1961 Chevrolet Impala SS to muscle car heyday favorites like the 1970 Plymouth Road Runner SuperBird, as well as other high-performance classics of the 70s, 80s and 90s.

## Customer Reviews

Fans of fast and powerful high performance cars - the muscle cars - will love the Muscle Cars Field Guide. Rather than just focusing on the Golden Age of Muscle Cars, John Gunnell shares information about literally hundreds of different cars from the 60s through the 90s. Gunnell lists historical information about the cars, as well as the original prices of muscle cars and values of

current ones. Because the Camaro is about to be reintroduced by Chevrolet, I found this section especially interesting. You can enjoy this book from many perspectives: as a nostalgic and sentimental look at cars from America's past; as a way to discover more about what powers our transportation; or as a way to imagine the appearance and performance of future vehicles. In any case, we highly recommend John Gunnell's Muscle Cars Field Guide.

It really isn't a bad guide unless you get it on Kindle which is why I gave it 4 stars instead of 5. The illustrations just do not come out well. Other than that, it is a pretty good reference for American cars from a bygone era.

This great little book will transport you back to a time where 475 horsepower V8 American 'muscle cars' cost about 3 to 4 thousand dollars, and did 0-60 in 6 seconds or under! If words like 'Hemi', 'Ram Air', and 'Rocket 455' give you goosebumps, you know what I mean. Excellent full page photos and stats as well! Easily 5 stars.

Great pick up for those people who want to know a little bit about all the great muscle cars of our time. The pics are great & the descriptions & info about the cars are interesting. Fits in your back pocket.
