Simple Savings: 274 Money-Saving Tips That Will Help You Save \$1,000 Or More Every Month

Synopsis

Live Larger on The Money You Already Have Are you tired of having too much month left at the end of your money? Do you feel like there's just never enough money to go around? Would having \$100.00, \$200.00 or \$500.00 extra per month make a big difference in your life? Do you want to save money, but aren't sure where to start? If you can answer yes to any of these questions, Simple Savings: 274 Money Saving Tips That Will Help You Save \$1,000 or More Every Month is the book for you. Don't worry! This isn't another one of those books that tell you to pinch pennies and eat nothing but beans and rice. Rather, Simple Savings is chock-full of little-known, but highly-effective money saving strategies that will allow you to live the same lifestyle you are living today while leaving more money in your pocketbook. Authors Matthew Paulson and Toi Williams have collected hundreds of money saving tips from savvy moms, frugal dads and other smart shoppers and compiled them into an easy-to-read guide that will teach you to get more value out of each dollar you spend. By reading Simple Savings, you will learn how to: Free-up room in your budget so that you can spend more money on things that you actually enjoy. Reduce your family's grocery budget by \$50.00 per week (while buying the same food you are today). Dramatically reduce the cost of your cable bill, your cell phone bill and other nagging, recurring expenses. Cut the cost of transportation in half by spending less on gasoline and lowering your vehicle maintenance costs. Stop getting ripped-off by your bank and get financial services that actually work for you (and not against you). Book a first-class trip on an economy budget using little-known travel hacks and other money saving tips. Want to save money, live better and spend less? Saving money has never been easier when you read Simple Savings: 274 Money Saving Tips That Will Help You Save \$1,000 or More Every Month. Customer Reviews

Matt's book is chock full of helpful advice about saving money. What I like best about these strategies is they focus on how to stretch your existing budget instead of forcing yourself to give up on things you love to buy. Instead, Simple Savings showcases a variety of "hacks" that can help save money without making a lot sacrifices. Specifically, it includes a wide variety of websites/tools you can use to find savings, cut down on your bill costs, and get deals on items you regularly purchase. This book WILL save you money!

As an avid listener to Clark Howard, there is not much new here, except Matthew recommends you use about 20 different apps. Seriously? I may save a few bucks, but I just lost 20 hours.... If you are totally new, you may find something useful, I did not.

I was excited to discover this book. I am all about saving money. Especially saving money without cutting down on quality or quantity. I thought I had done well by using coupons from the paper and mail. You know, the two for one meals at Burger King, Arby's and other fast food places? This book put me in touch with apps I can download on my smartphone that gets me discounts on products from electronics, groceries, motels and hotels to airplane travel. This book tells how to save on prescription drugs and gasoline. I found I was able to save money at night clubs and sport bars by following advice from this book. Is this worth the cost? Absolutely. I saved over \$125 during the past 7 days by using the apps and advice. That would equal a savings of \$500 a month (Savings of \$6000 or more each year). You may know a few of the ways to save money as I did. This book will surprise you with all the ways you will save money that you did not know.

Well researched, thoughtful, and insightful! An easy read, not pithy or boring at all. In fact, as you read through it you find yourself getting excited about simple changes that can make a big difference in your life. I found it full of very practical ideas for keeping a little extra money in your pocket that adds up quickly. I was not familiar with a number of the apps and programs suggested, so that was very helpful. These are simple enough tips for anyone to implement in no time. Why wouldn't you? Highly recommend this book!

This little book is a quick read and more like a savings smorgasbord than an in-depth book on finances. Just pick the items you need or you want to try and don't worry about doing everything at once. The reminders and insights on shopping for insurance and banking services are easily worth the small cost of this book and your time to read it.
