## **Customer Reviews**

This book was a good introduction to a lifestyle with which some may not be familiar. J.R. gives great advice about ways to declutter not only your living space but also your mind. There are also pointers on decorating the interior and exterior of the home to make it feel as large as possible. The book provides four popular reasons a person would choose to move into a tiny house- one of which is self-explanatory. As for the other three, J.R. discusses the financial and environmental benefits, but I would have appreciated more information on the emotional/psychological benefits to the tiny-house lifestyle.

I really apreciate a simple lifestyle. Here in Brazil the common mid class citizen consumes a lot less than the average american. Our incomes are one thirth of americans. So actualy our houses are tinniest. But some clues are very cleaver.

You can never have too many good DIY books in your library

Info is mostly intuitive. A bit disappointing.
