America, You Sexy Bitch: A Love Letter To Freedom

Synopsis

She is a single, twentysomething, gun-loving, Christian, Republican writer and blogger, the daughter of a senator and 2008 Republican presidential nominee. He is a married, 40-year-old, gun-fearing, atheist, Democrat comedian, the son of a lesbian former Social Security employee. Meghan McCain and Michael Ian Black barely know each other. But they are about to change the way politics is discussed in America. In the summer of 2011, McCain and Black embarked on a balls-out, cross-country tour. Along the way, they spoke to politicians, gun lovers, abortion-rights advocates and opponents, gay parents, flag burners, Muslims, poker players, Tea Partiers, Minutemen, veterans, teen moms, bikers, fast-food workers, and a hooker or two. They toured the White House. They fired semiautomatic weapons. They stopped and ate at every Olive Garden along the way. But mostly they talked to each other about their differences and their similarities. It's Chelsea Handler meets Hunter S. Thompson in a political cannonball run across America.

Book Information

Audible Audio Edition

Listening Length: 10 hours and 49 minutes

Program Type: Audiobook

Best Sellers Rank: #79 in Books > Audible Audiobooks > Humor > Political Humor #741

in Books > Audible Audiobooks > Nonfiction > Travel #900 in Books > Humor & Entertainment > Humor > Political

Customer Reviews

I just finished listening to "America, You Sexy Bitch" and I have to say, for the most part, I really enjoyed it. I first heard of this book on Twitter. I follow both Michael and Meghan because I find them both interesting for different reasons. I'm a comedy fan, and thought of Michael as that vaguely funny guy I'd seen on VH1 and Comedy Central occasionally. I was aware of Meghan at first through her father, but then started seeing her more on TV and became a fan of hers in her own right. I frequently check out her website and make it a point to watch her on TV sometimes. While I don't agree w/ all of her politics, I really do think she's what we need more of in the Republican

Party, young and open-minded people willing to take a stand for what they believe. Personally, I consider myself a Conservative Republican, and while I am not all *that* interested in politics, I do like to try to stay current with what's going on in our country. I was very intrigued by the concept of this book, but when I started listening to it, I still wasn't exactly sure what to expect. Overall, I was surprised in both good and bad ways. I found myself laughing out loud at certain parts. Rolling my eyes at some. Getting a little bit mad at others. I didn't love the section about strip clubs. I didn't love the section about Little Rock. But what I did love was the overall message of the book and the honest discussions that Michael and Meghan had about the most controversial topics that our country faces. While I found myself, for the most part, leaning towards Meghan's point of view, I did find Michael's interesting to hear about in greater detail. I didn't always agree or disagree with either one of them in particular and I found that interesting.

Let me begin by saying I've never written an online review for anything before, but Meghan McCain and Michael Ian Black's book has affected me so much (in an enlightening way), that I felt compelled to do this, so please be patient with me. I am 42 years old, and have been a "registered Democrat" since my 18th birthday, and have voted in every Presidential election. However, I've only voted for a Democrat once in that time. I've never really followed politics, nor have I ever given it [too] much thought. I followed it enough to be able to follow a conversation, but never considered myself as a member of a specific party. I found this book purely by accident. I was a passenger in a car whose driver was listening to the Mac & Gaydos show on the radio and, as such, I had no control over which station we were listening to. They had just welcomed Meghan McCain on as a guest speaker, which she apparently does on a weekly basis. I knew nothing about her, other than that her father was the senator of the state in which I live. (Embarrassing, but I already explained I don't follow politics.) After listening to her for a couple of minutes, I was intrigued enough to download a sample of 'America, You Sexy Bitch.' I didn't realize until I found the book online that Michael Ian Black was even the co-author. During her chat with Mac & Gaydos, Meghan McCain only referred to 'Michael.' I was pleasantly surprised that it was MIB, as I really enjoy his flat, cynnical humor. Needless to say, after reading the 24-page sample, I HAD to get the entire book!! I loved the format of it.
