Customer Reviews

I originally wanted a book that would provide some tips & tricks for networking. I work for a large institution and I wanted to gain some ideas to help â ^marketâ ™ myself to people that work in other departments - in hopes that I would come to mind if a higher position opens up. After searching a few times for â œhow to networkâ •, â œnetworking yourselfâ •, and similar phrases, the Go Pro: 7 Steps to Becoming a Network Marketing Professional kept appearing as the most reviewed and most popular. I purchased The 7 Habits of Highly Effective People based on similar criteria and I found that book amazing. Needless to say, I regret this purchase. I should have been tipped off

when one of the very first pages in the book discusses how the author wants the book in as many hands as possible and provides information on bulk purchases. Next, when I skipped to the back to read about the author, the very first "fact" that he has earned 15 million dollars in his "esteemed career" started getting me to question the motivation of this book. After reading half-way through, I was thoroughly convinced this book was trying to sell you on the website; which tries to sell you on the program that is risk free!!! And you only pay shipping (Terms and conditions may apply)!! Any information that was provided read exactly like what you would expect to do if you were in a pyramid scam. Basically, make a list of everyone you can think of and become friends with them so that you can later corner them with a presentation or a tag-team, hard sale. It is poorly written (the author does warn you about that in the beginning) and provides useless information. Since I am unable to get my \$10 back, I am throwing the book away. I can't get my money back but at least I might stop somebody from wasting theirs.
