I would highly recommended to read this book everyone.

This book enlightened me as to the art of argument. I used to just argue with people using whatever arrows in my quiver that I could grasp for. Now I am equipped with an arsenal that I will carry with me everywhere. Author does a fantastic job of categorizing the tools of persuasion, as well as providing some examples to get started on the art of rhetoric. I hope rhetoric comes back, because we lack a true appreciation for heated discussion in the United States.
