## **Customer Reviews**

I purchased this book as an updated version to a typing book I had already owned. I find this one to be as detail oriented. I also purchased it to brush up on my typing skills along with my Microsoft Word 2010 skills. So far I find the lessons like in the previous versions of this book are very easy to follow.

i use this item for school and there was a big difference using it in school than it was using it at

home.....my teacher cant c my work online from school thru the web report. When I use the same username and password that I have in school at home....all of the information is erased (my work) I like the program itself just not the difficulty being caused.....

The book was in moderately worn condition when I got it, probably because it was not packaged properly (it was halfway unwrapped due to being in an envelope that barely fit it while being shipped). Over all it is exactly what I needed for school - but it did not come with the disk.

It was a bit beat up, but very useable. Delivery was quick. The book was well worth the price! Because this turn out so great, I even ordered an addition two items. I will never buy new again!

5 Stars, perfect book, excellent customer service, book was deliver in good timing, I needed it for my class and book was priced perfect and affordable,

The book arrived on time and in great condition. It even had the keyboarding discs that I wasn't even expecting. I am very happy with my purchase.

This was great, the book is really handy for my keyboarding class. It took only 6 days to get here to Guam. I truly appreciate the service.

It took like 2 weeks before i got it but when i did get it i was happy and was able to use it for school extremely great!!
