Couple of months ago, my sister started her own business which of course included finding her place in the online world. Being a beginner and not knowing everything there is to know she made some mistakes. Since I'm starting something on my own she bought this book for me to help me out. Only now, after I have read this I realize where things went a bit wrong and how much easier would it be for her if she had learned something from this author on time. I would definitely recommend it to all fresh entrepreneurs to improve their business start.

A great book with lot's of information on how you can optimize and promote your website or blog. And of course a lot about how to use different social media sites (Facebook, Twitter, Youtube) to grow your business.
