AMP Real Estate Practice Exams For 2015-2016

Synopsis

This book is designed to help you prepare for and pass the national AMP real estate exam. Three complete 100-multiple-choice-question practice AMP exams, with detailed answers given for all of the questions, will allow you to assess your strengths and weaknesses and to hone your test-taking skills before exam day. This book also contains: a comprehensive review of the real estate math that you are expected to know for the AMP exam; tips on preparing for and taking the AMP exam; and a useful glossary of more than 600 key real estate terms for exam preparation and reference.

Customer Reviews

I ordered both books--Real Estate Practice Exams and Real Estate Exam Prep--for my daughter. She was having trouble with the reading materials assigned in class by one of the major national realty companies. These two books are much more user friendly than the manual (and tons of loose papers) given in class, making things easier to organize and understand. I've done the comparison myself, and there really isn't one. These books are much easier to follow and understand than the manual (and tons of papers). Pardon me if I'm a bit off the mark here, Major Realtor, but from what I've surmised, the practice exams book and the Real Estate Exam Prep book we picked up for a song on are far more valuable than the class for which I shelled out a cool \$400. I can't help but wonder if whoever put the manual for the class together purposely made it hard to understand, and wrote this book to make more money!

This book is useful in that the questions really do resemble the exam. However the explanations of

the answer was essentially a rephrasing of the question. I cannot stress enough that this book really fell short on the explanations and I think the Real Estate Exam for Dummies was superior in this aspect. However, this book was a lot better as far as the questions are concerned. I would certainly buy it again for the practice exams but...I'd say this should be a week before the exam see where I stand kind of deal rather than an actual study tool. I purchased the prep guide by the same author and publisher however and this was indeed a superior product that I can stand behind.

Great book for prep

Worth the money.
