Customer Reviews

While I hate the use of the word secrets in non-fiction book titles, it's true that a lot of the information given in this volume was unknown, at least by me. So I didn't deduct any points. Plus, these pages are filled with motivational, and worthwhile tips that you can use right away. I love KINDLE e-books and finding well-written ones makes my KINDLE such a powerful business and learning tool. If you are involved in or planning to become involved in webinars, then do not pass on this book.
