Best Sellers Rank: #138 in Books > Computers & Technology > Games & Strategy Guides > Pokemon #190 in Books > Audible Audiobooks > Arts & Entertainment > Games #1031 in Books > Computers & Technology > Games & Strategy Guides > Strategy Guides

Customer Reviews

No, this is useless. It's a black and white book with text on half of each page explaining things like how to download the app on your phone...uh, duh. As of print, the author said 'no player had reached level 5' so that should be a good indication of the insight you get from this book. If you just play the game for more than 5 minutes you learn more.

Do not buy this book !! It is useless and does not offer any real game instruction.

Don't waste your money. Low quality printing and doesn't give any information you can't figure out from playing. I don't know much about Pokemon but I know all the information in this book before I

even bought this book. I thought it would be helpful on showing characters, etc and give valuable tips for me and my family.

Any review for this book that contains more than one star is fraudulent. This book is absolutely horrible at best. Do NOT purchase this! The entire book looks like someone printed screenshots with very poor resolution and it's ALL black & white. There is nothing "advanced" about it, and ZERO accurate strategy. should pull this one. A total sham and beyond crap.

Full of typos, grammatical errors, misinformation, and already out of date due to app updates. Nearly half of the book contains instructions on how to download the app to various devices, and even most of this info is wrong! For example, you can't install this app on a Kindle via the Appstore or on your computer as a Facebook app game. The actual Pokemon Go related content is basic information that is easily found online for free or again, is just plain wrong. Incubating eggs does not require just waiting (we all know you have to move around to hatch them) and eggs don't give you "a candy, or some reward."

totally worthless. looks like a PDF that someone printed off their computer. No info on types of Pokemon found in the game or training / battle information. Pure waste of money

This book is a complete waste of money. It contains only the most basic description of the game and makes only the most obvious points. The text is also filled with typos.

Pokemon Go is latest app that become popular in very less time. This book tell me how to create account for pokemon go, then choose character to appear. We have many options to customize avatar. Then decide pokemon and catch your target.
