Customer Reviews

I really got this for my Kindle DX. I like having the bigger viewing area for art pieces. Black and white doesn't matter to me in this situation, I just wanted to be able to see these paintings up close. Unfortunately the pictures were very pixelated on the DX. There are about fifty paintings/photos in total, so it is a good number, but the quality isn't very good. I tried viewing the book in Kindle for PC, and while they are in color there, the program kept closing down on me when I tried to view the pictures as larger than a postage stamp size. Also, clicking on paintings brought me to a retail webpage so I could buy a print. Not interested! So it's either "big enough to see, but very pixelated"

or "postage stamp sized."At least I only lost \$3.00
