Very poor arrangements that sound very little like the songs which is especially weird since it is such a piano heavy sound track. It's more handy as a reference if you are able to make up your own parts based on the key or basic chord.

I ordered this songbook while directing a production of The Rocky Horror Show to use until the actual score arrived. It is surprisingly accurate, and actually contains more information on vocals than the score does. It was perfect for auditions and saved me from disaster during early rehearsals (since the score arrived 2 weeks later than I needed it)!

Always loved the Rocky Horror Show -- last saw it on Halloween. Now I can learn all the words and sing along!

A bit too simple though. I could have done this by ear minus a few catchy harmonies. Still worth it!

This book was really great, I found out things I never knew about Rocky Horror, and I've only seen

that movie around 100 times! Richard O'Brien is pure Genius!
