Probably the best available guide on Spoken English on Kindle/Internet. Whitney Nelson had simply tried to make her reader understand various perspective of English speaking. Personally I found this book very helpful and profound. Overall an amazing offering from author. Highly recommended to anyone looking for english guide AND everyone.

I have a Filipino friend who is pretty good in English. His writing skills were fluent but he's somehow skeptical when it comes to speaking. His speaking skills ain't that bad. I think it's just as good as his writing skills but he seems to be holding back. So I got this book for him to help him out. I checked out the book myself and it's a pretty good one and I'm sure this will help him out in a large scale. I grabbed this book in particular because of Whitney's experience towards the subject and she proved herself right by writing this book. Pretty impressive.

This book is an effort from the author which shall be appreciated because it has covered almost every aspect fluency. The book addresses the fear and myths that limit people from being a fluent speaker such as the age and not being able to visit and English speaking country. I loved the method of S.M.A.R.T. goals setting, it really could bring a positive impact. The author has given some great tips like not spending a lot of time on Grammar in the beginning, I agree with this. Learner shall first learn phrases and conversation, so that he feels confident about speaking and then he/she can continue leaning grammar on the way. The methods are great and have been made to work. The start is when you start taking action!

Imagine yourself speaking to a Native American or a friend who speaks well than you, you might find yourself struggling to express yourself the way they do and you wish your English command is as good as theirs -- I felt that way, too! So I'm just like thrilled when I found this book and read it. It literally became my new friend. The strategies and methods introduced are actually useful and effective. I tried doing the "shadowing" and the so-called scriptorium methods during my personal English communication practice. It feels awesome and I know I have been improving since then!
